Let us keep close together, not far apart

Creating work connections: supporting people to live great lives.

Workwise supports people facing personal or health challenges to find and keep a job.

Our integrated approach means employment support is provided much earlier in a person's recovery, is coordinated with healthcare, and clinical treatment is tailored to support a person's working life. In tightened economic circumstances and a tougher labour market, we know that employment support has a positive impact on people securing work and other opportunities. We value our relationships with Te Whatu Ora and housing support organisations LinkPeople and The People's Project, and the knowledge that together, we're making a difference.

This year, we worked with **1,625 new people** - helping them to find work and to stay in work.

“I'm immensely grateful for the help I received from Workwise and for the amount of support I received. If my employment consultant hadn't been so kind and caring I doubt I would have had the courage to even volunteer. I've gone from rock bottom to thoroughly enjoying my life and my job, which is something I could only have dreamed about at the time.” - **Amanda** (not her real name)

Over the last year, Workwise provided employment support services for:
